## Extracto

I'm a Programming Technician with more than 4 years of professional experience in software development, specialized in Backend. I have led and executed small to medium scale projects, using mainly Python along with technologies such as .NET, C/C++ and frameworks such as Django and Flask. I have experience with relational and non-relational databases, including MySQL and MongoDB. My focus is on developing scalable and efficient solutions, with a strong commitment to continuous improvement and process automation.
